

Moving Abroad Checklist

Moving to a new country isn't just about packing boxes. You'll need to take care of paperwork, insurance, housing, and the logistics of the move itself. This checklist will help you stay organized—step by step, clearly and without confusion.

Before Departure

Start early—it will save you time, money, and stress.

- ☐ Check the validity of your documents (passport, driver's license)
- ☐ Check visa and residency rules for your destination
- ☐ Cancel or transfer contracts (rental, utilities, internet)
- ☐ Notify important institutions of your change of address
- ☐ Arrange temporary or permanent accommodation
- ☐ Review health insurance and local registration needs
- ☐ Insure your personal belongings for the move
- ☐ Start sorting and packing the items you want to take with you

On the Day of the Move

Keep essential items and documents easily accessible.

- ☐ Carry all important documents with you
- ☐ Bring cash, a card, and mover contact details
- ☐ Pack basic toiletries and snacks for the journey
- ☐ Keep medications and daily essentials in your hand luggage
- ☐ Double-check bookings, tolls, and devices

After Arrival

New country, new responsibilities. Here's what to take care of first.

- ☐ Register with local authorities and your new address
- ☐ Open a bank account (if needed)
- ☐ Set up utilities and internet connection
- ☐ Register your vehicle and get local insurance
- ☐ Enroll your children in school or kindergarten
- ☐ Find a general practitioner, dentist, and pharmacy
- ☐ Verify or have your important documents officially recognized
